1. Reservation of kittens occurs when kittens are 1-2 months old, by making a deposit of 30% of the kitten's cost.
2. In cases of reserving an animal by nonresident and foreign citizens, the transfer of the kitten to the new Owner, as well as the preparation of the animal for dispatch, is carried out according to the preliminary 100% payment of the cost of the kitten and 100% payment of expenses related to the preparation of the animal for dispatch, payment of the delivery cost.
